

- Loading Capacity:** 12 - 15 - 18 - 21 - 26 - 30 KG
- Heating:** Electric / Steam heated
- Design:** Crossline
- Solvent Tanks:** 3 in stainless steel, glaspearl blasted
- Rotation Filters:** 2
- Solvent:** **Perchloroethylen**

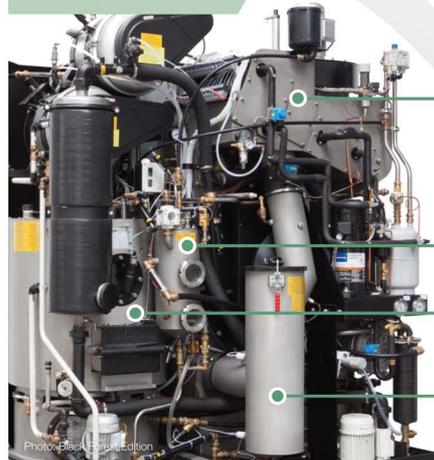

Multisolvent®:
Hydro Carbon, Silicone D5 GreenEarth,
Solvon K4, Intense, HIGLO

- Patented dynamic drum perforation
- Fractional distillation in Multisolvent® machines
- Round, self-cleaning water separator
- Solvent cooling by refrigeration unit
- New angled tank bottom
- Round air duct
- Direct-Connect for remote maintenance
- Cataphoresic coating of back plate, cooler, fan housing, safety trough, panels, button trap basket etc.
- 5 years parts warranty on condensor and Viton® flaps
- Paintless stainless steel parts

ROUND SHAPES

- ⊕ less welds
- ⊕ less fatigue breaks
- ⊕ no lint balls
- ⊕ no corners and edges
- ⊕ better airflow

The BÖWE Philosophy

THE ROUND SHAPE OF THE COMPONENTS IS A CLEAR BENEFIT FOR THE OPERATION OF THE MACHINES AND ALSO FOR THE DAILY MAINTENANCE

Round air duct

Round water separator

Round distillation

Round lint filter and button trap
